

SunWare solar panels are designed and manufactured for extreme application conditions. From use on sea buoys and boats to avalanche bridges, SunWare marine solar panels and solar systems are used worldwide wherever reliability, durability, robustness and freedom from maintenance are required. Made in Germany by SunWare.

The Plug & Play solar panels from SunWare. Install the solar module, insert the charger - ready! The plug-in solution. 5m supply cable with SureSeal plug on the solar panel, suitable for the accompanying FOX-062 charge controller. Simply plug the FOX-062 into the socket of the vehicle and the battery is already charged from the solar panel

It is important to use marine solar panels to ensure that you have a system designed to withstand the harsh conditions at sea. Flexible solar panels can be used to create a flush finish and can even be walked on, or solid framed glass ???

Here you will find all the technical data of our marine solar panels & solar charge controllers. Data sheets including technical drawings of the solar modules and charge controllers. As a PDF for quick download To view the documents a PDF-reader must be accessible. To view the video files normally a browser plugin must be installed.

Sunware ist Hersteller f?r Offgrid Solarsysteme, Marine Solarmodule und Solaranlagen. F?r Boot, Offshore & Allrad | Solarsysteme Made in Germany Sie wollen ein ausgereiftes Solar Produkt? Dann sind Sie bei uns richtig. Marine Solarmodule f?r Boote, Bojen, Allrad & Van. Solar Laderegler 12 & 24 Volt & Fernanzeigen.

Solar systems / panels for special applications. SunWare provides the opportunity for even smaller series (approx. 50 pieces) of customized panels. The system design is carried out in close cooperation with the customer . The panel can be adapted both in form and color as well as in the mechanical design requirements.

Solar systems / panels for special applications. SunWare provides the opportunity for even smaller series (approx. 50 pieces) of customized panels. The system design is carried out in close cooperation with the customer. The panel can be adapted both in form and color as well as in the mechanical design requirements.

SunWare have been making solar panels and regulators in Germany for over twenty years. Their panels are designed and tested specifically for use in marine environments and salt water, they are completely maintenance free, durable, and weatherproof even under extreme exposure whether in the Caribbean, the Mediterranean, or the North Sea.

What type of solar panels do I need? fixed mounted? Ideal for recharging and care of the battery(ies) if the vehicle or boat is not used for longer periods. Marine Solar Panels - Made in Germany Innovation and Experience. You prefer a perfect solution for your boat? You want a mature solar product? Then you are right with us. We take the time to develop our marine solar panels & solar charge controllers. We test extensively under the harsh environmental conditions that are later expected of the product.

The solar panels of the series-20 black have a front-side cable outlet, panel backside is completely flat. The right of the cable terminal there is a possibility to stick through the cable. SunWare GmbH & Co KG develops and produces all modules and controllers in ???

SunWare Solarmodule werden f?r extreme Anwendungsbedingungen konstruiert und gefertigt. F?r die mobile Anwendung auf Boot, Allrad & Camper Van. Faltbar & robust, inklusive Tragetasche & Solar Laderegler passend f?r KFZ-Steckdose. Auslegen, einstecken - fertig. Solarmodule Serie-20 Decksmontage, flach & begehbar.

SunWare solar panels are designed and manufactured for extreme application conditions. From use on sea buoys and boats to avalanche bridges, SunWare marine solar panels and solar systems are used worldwide wherever reliability, durability, robustness and freedom from maintenance are required. SunWare Panels ??? Textile; Solar Regulators. Spectra Regulators; Steca Solar Regulators; Morningstar Controllers; Applications. Remote Power

With LOXX clips onto the Bimini, plug-in-done Sunware TX series of solar panels are light-weight panels with textile cover made of high-quality tarpaulins. TX modules have been specially developed for mounting on Bimi or Sprayhood. These areas provide sufficient space for powerful solar modules. Finally enough power for the fridge, tablet, sat

Sunware Solar Panels. Many end users know that solar panels are now so common throughout the world that you can find them at the tractor supply or building material store down the street. Most glass solar panels are typically efficient and cost effective when properly connected to a quality charge controller and the appropriate batteries.

Company profile for solar panel and Component manufacturer SunWare Solartechnik Produktions GmbH und Co. KG ??? showing the company's contact details and offerings. Solar Panels Solar Inverters Mounting Systems Charge Controllers Installation Accessories. Battery Storage Systems Solar Cells Encapsulants Backsheets. Advertising .

The solar panel adapts to curved surfaces, with maximum curvature of 3cm/m panel length. Inside the panel package there are black screw rosettes for countersunk screws. It prevents damages of the panels laminate by the screw ???

Since foundation of SunWare in 1987 we develop and produce solar modules and charge controllers specially for the harsh daily routine at sea. The special challenges of the sea / salt water applications, we meet with uncompromising standard of quality.

Sunware series-40 semi-flexible solar panels are flat, light and powerful. The multicrystalline high-performance solar cells are protected in an EVA laminate and ETFE coatings against weathering. Even in diffused light conditions or even in winter, the modules produce a high charging current.

With a peak power of 240W, this reliable panel uses high-performance crystalline solar cells for maximum power output. It is protected within an EVA laminate and has a low maintenance, self-cleaning surface.

About SunWare. The SunWare Solar GmbH & Co.  
 KG has been producing and developing more than  
 20 years maritime solar systems. This long-standing  
 expertise in maritime solar technology, with its own  
 development and production department with a  
 team of young, motivated staff, SunWare has  
 become the market leader in a market segment for  
 demanding solar product ???

The Plug & Play solar panels from SunWare. Install  
 the solar module, insert the charger - ready! The  
 plug-in solution. 5m supply cable with SureSeal plug  
 on the solar panel, suitable for the accompanying  
 FOX-062 charge controller. Simply ???

? SunWare solar panels have the highest power output to surface area ratio of walk on solar panels on the market. Their efficient polycrystalline cells convert sunlight to power into your battery so you can have the luxury of cool drinks and keep the essential equipment like the depth sounder running too.
