

However, with Suriname's commitment to increasing the share of renewable energy in its grid, the demand for grid-tied solar installations is expected to rise. The government, along with Energiebedrijven Suriname (EBS), has been focusing on small-scale solar farms and rooftop solar projects to complement the existing energy mix .

The Electricity Act 2016 facilitates private consumers to install solar panels for self-consumption and to use the electric grid to exchange energy by using net metering scheme.⁷ indicating a high technical feasibility for solar in the country.⁸ Suriname's gold mine company site has battery energy storage system (BESS) of capacity 7.8 MW/7.
