

JIEZOU POWER GROUP, founded in 2013, is headquartered in Suzhou City, China, with branch factories and companies located in Fengyang City and Foshan City. We specialize in the production of medium and high voltage power transformers ranging from 220V to 220kV, as well as distribution transformers.

JIEZOU POWER, mainly manages power grid projects, 500KV EPC, 230KV hydroelectric power plant, 115KV power substation, etc. JIEZOU POWER factory can manufacture oil type and dry type distribution transformer, max 500KV 480MVA power transformer, GIS, switchgear, substation, based on ANSI/IEEE/DOE2016/CSA/IEC60076 standard .

JIEZOU POWER GROUP is a leading manufacturer of medium and high voltage power transformers, distribution transformers, and other electrical equipment. Since its establishment in 2013, the company has grown rapidly, establishing its headquarters in SuZhou City, China, with branch factories and companies in FengYang City, FoShan City, and other

With our headquarters located in SuZhou City, China, and branch factories and companies in FengYang City and FoShan City, we are strategically positioned to provide exceptional service to our clients. At JIEZOU POWER GROUP, our priority is to manufacture medium and high-voltage power transformers ranging from 220 volts to 220 kilovolts.
