

Is Jan Mayen the same as Svalbard?

Although administered separately,in the ISO 3166-1 standard, Jan Mayen and Svalbard are collectively designated as Svalbardand Jan Mayen, with the two-letter country code " SJ". It was also given the web domain of .sj. However, the domain is not in use and Norway's .no is used in its place.

How many people use the Internet in Svalbard and Jan Mayen?

According to Kepios analysis,37.0 percent of the population in Svalbard and Jan Mayen, or 944 people, did not use the Internet at the beginning of 2022. This means that approximately the remaining 63.0 percent, or 1,338 people, used the Internet.

Do snowdrifts affect solar power plants in polar climates?

In this study we show that snowdrifts pose a significant challengefor solar power plants in Polar climates as they can grow to cover the plant, resulting in reduced power production and an imposed mechanical load on the PV arrays.

A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days in Longyearbyen varies throughout the year. The wetter season lasts 8.9 months, from July 21 to April 17, with a ???
