

In February 2019 ?F and P?ry joined forces in order to become a international engineering, design and advisory company, driving digitalisation and sustainability for the energy, infrastructure and industrial sectors all over the world. In ???

Finnish energy company St1 has selected the Swedish design and consulting company ?F P?ry to provide engineering services for the SEK1.5bn (\$156.1m) Hydrogenated Vegetable Oils (HVO) manufacturing unit in Gothenburg, Sweden.

P?ry PLC (Finnish: P?ry Oyj), which merged in 2019 with Swedish company ?F into AFRY, was an international consulting and engineering firm that served clients globally across the energy and industrial sectors and provided local engineering services in its core markets. Its focus sectors were power generation, transmission, and distribution

With a new common brand and offer, we strengthen our position in our core markets Sweden, Norway, Denmark, Finland and Switzerland, and grow internationally within, for example, the energy and process industries.

S?dra Sveriges ?ngpannef?rening ("The Southern Swedish Steam Generator Association") was founded in Malm? on 23 February 1895. It was the first Swedish steam-pipe association to take care of the interests of the owners of steam generators and other pressure vessels. The main task was to perform regular inspections on the safety of steam boilers to help prevent industrial accidents."The Central and Northern Swedish Steam Generator Association" was formed in Stockholm

Finnish energy company St1 has selected the Swedish design and consulting company ?F P?yry to provide engineering services for the SEK1.5bn (\$156.1m) Hydrogenated Vegetable Oils (HVO) manufacturing unit ???

P?yry, now merged with Swedish company ?F into AFRY, is an international consulting and engineering company. It serves clients globally across the energy and industrial sectors and locally in its core markets. It delivers strategic advisory and engineering services, underpinned by strong project implementation capability and expertise.

In February 2019 ?F and P?yry joined forces in order to become a international engineering, design and advisory company, driving digitalisation and sustainability for the energy, infrastructure and industrial sectors all over the world. In November 2019 ?F ???

With a new common brand and offer, the company hopes to strengthen its position in the core markets of Sweden, Norway, Denmark, Finland and Switzerland, and grow internationally within, for example, the energy and process industries. The legal name of the company will remain ?F P?yry AB.

P?yry's Energy Business Group, one of the world's largest and most successful independent energy consulting and engineering firms and a leader in its main practice areas, provides technical consulting, engineering, supervision and project management services within the areas of nuclear power, thermal power, hydro power, renewables and
