

System pro E power is the innovative ABB's main distribution switchboard solution with rated current up to 6300A and short-circuit current up to 120kA. Designed to easily fulfill all electrical installation requirements in terms of protection degree, segregation form and electrical characteristics, according to the latest international

System pro E(R) energy Beyond connected, always one step ahead of maintenance ??? Flexible and scalable solutions for commercial and industrial areas ??? Retrofit existing installations within a day ??? Connect the system to the cloud in only 10 minutes ??? Lower operational costs and improved facility value by 5 %
