

How big is Taiwan's solar panel installation?

Solar panel installation in Taiwan is expected to plummet about 37 percent year-on-year to 1.7 gigawatts, compared with 2.7 gigawatts last year, Motech estimated. The company has begun to produce a new generation of TOPCon solar wafers called G10, which are larger than the previous generation M6 wafers, it said.

What is a successful business model for solar in Taiwan?

An example of a successful business model for solar in Taiwan is Vena Energy, a renewable energy IPP owned by US-based Global Infrastructure Partners. Vena owns and operates five solar projects in Taiwan with a total capacity of 97.8 MW, and another 312.4 MW of solar plants under construction to be completed by the end of 2022.

Will offshore wind power be a pillar of Taiwan's green energy supply?

This is because the wind farms signed in recent years will be connected to the grid from 2024 onwards, which, coupled with the subsequent zonal development of 500 MW per phase, will make offshore wind power an important pillar of Taiwan's future green energy supply.

How many solar projects does Vena own in Taiwan?

Vena owns and operates five solar projects in Taiwan with a total capacity of 97.8 MW, and another 312.4 MW of solar plants under construction to be completed by the end of 2022. The local supply chain for solar power equipment is mature and complete, and materials for most projects will be fully sourced in Taiwan.

What is the supply chain for solar power equipment in Taiwan?

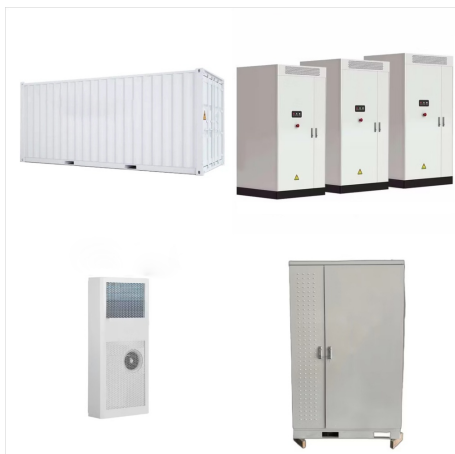

The local supply chain for solar power equipment is mature and complete, and materials for most projects will be fully sourced in Taiwan. For construction, EPC, and equipment opportunities, U.S. industry and investors should partner with local industry to win contracts, as local industry is highly competitive.

What is the outlook for the Taiwanese solar market?

As the outlook for the Taiwanese solar market looks bleak, Motech has concentrated efforts on overseas markets, which contribute more revenue than the domestic market, he said. Solar panel installation in Taiwan is expected to plummet about 37 percent year-on-year to 1.7 gigawatts, compared with 2.7 gigawatts last year, Motech estimated.
