PCI is proud to be a badged Energy Software Competency AWS partner. By combining our 30+ years of expertise creating software solutions for energy companies with AWS's reliable cloud infrastructure and support, we architect outcomes greater than the sum of our parts.
The Leadership Team at PCI Energy Solutions is responsible for shaping the strategic direction and operational excellence of the company. Comprising key executives from technology, operations, business development, customer experience, and finance, this team collaborates to drive innovation in software solutions for the energy sector.

PCI's integrated energy management platform consolidates all multi-commodity trading activities in a single system, providing full transparency and optimization across power, fuels, and more. Our modular, cloud first solutions are tailored to each customer's needs, anchored by expert support that evolves with your business

TAIWAN PCI ENERGY SOLUTIONS

PCI's integrated energy management platform consolidates all multi-commodity trading activities in a single system, providing full transparency and optimization across power, fuels, and more. Our modular, cloud-first solutions are tailored to each customer's needs, anchored by expert support that evolves with your business

We work with long-term solutions in mind, so we''re integrating renewable energy sources and batteries into power generation portfolios. We hope to enable a net-zero emission future and maximize the efficiency of green generation assets like solar, wind, hydro and thermal.
