TIGI Solar is pleased to announce a pivotal move in
its global expansion strategy with the signing of a
term sheet to acquire 90% of the shares of Solid
Solar Energy Systems GmbH, with HQ in Austria.
This strategic consolidation enables TIGI Solar to
combine its renewable heat technology with Solid's
global experience and expertise in thermo

High solar fractions up to 50 % for cities with a
district heating grid. BigSolar is a smart
combination of large-scale solar thermal collectors,
a seasonal thermal energy storage and absorption
heat pumps. An intelligent control engineering of
these advanced hybrid generation technologies
reflects SOLID's knowledge and expertise.

Our customized products provide renewable energy for heating and cooling to our clients. We offer energy solutions with long-lasting quality that are technically reliable, profitable and environmentally sustainable. The highest level of customer satisfaction is our commitment.
