

Romic Consulting puts the power back in your hands, with our variety of solar packages! Our solar products will help you generate your own power and make loadshedding a thing of the past. We offer a wide range of services, from products to installations and maintenance.

I have received excellent service from Romic Consulting with the recent installation of an inverter, solar panels, and batteries. The staff (Henrico van den Berg) was well informed about the products, friendly, and eager to render a service. The contracted electrician, Charl Smit, and his team were evenly competent and "user-friendly".

The Committee for Architecture and Construction under the Government of Tajikistan believes that using solar photovoltaic systems in buildings and structures, alongside centralized traditional power supply, could cover 6-8% of their total electricity needs.

USAID's Power the Future project partnered with the Government of Tajikistan and Pamir Energy to install the 200 kilowatt (kW) Murghab solar power plant ??? the country's largest utility-operated solar power plant and the highest in Central Asia.
