

What is Taqa (Arabic for energy)?

TAQA (Arabic for Energy) is one of Abu Dhabi's flagship companies and as such has an important role to play in helping to deliver the economic strategy of the Emirate of Abu Dhabi. The company currently operates in 11 countries across four continents.

What does TAQA stand for?

The Abu Dhabi National Energy Company, PJSC (TAQA) is a government controlled energy holding company of Abu Dhabi, United Arab Emirates. TAQA (Arabic for Energy) is one of Abu Dhabi's flagship companies and as such has an important role to play in helping to deliver the economic strategy of the Emirate of Abu Dhabi.

What does TAQA do?

TAQA drives innovation to create value for our customers, provide economic growth to the communities we operate in, and to enable energy sustainably. TAQA has been a champion in providing leading products and services to the energy industry regionally and globally, enabling performance and sustainable business for our customers.

Who owns TAQA?

TAQA's business roots lie in the local power and water desalination plants in Abu Dhabi. The company supplies around 85% of the Emirates power and 90% of water demands, through the operation of eight power and desalination plants in the UAE. The plants are 54% owned by TAQA, 6% by ADWEA and 40% by various international shareholders.

What makes Taqa a good company?

TAQA is focused on profitable, sustainable growth that would bring the utmost value to our stakeholders: shareholders, customers, and people, expanding our portfolio of well services, technologies and geographic footprint, organically and inorganically.

How does TAQA continue to innovate?

TAQA continues to innovate by developing and deploying technologies, products and services and building long-term customer relationships. TAQA aims to offer differentiated, competitive products and services to Energy Companies, generating sustainable value.

TAQA Arabia CEO Pakinam Kafafi said: "This project represents a milestone in TAQA Arabia's commitment to advancing green energy, aligning seamlessly with Egypt's national sustainability vision. "We are conducting pivotal studies in one of Egypt's most promising regions for solar and wind power, laying the groundwork for transformative energy solutions.
