

Is Telios a good MEP design firm?

In our opinion, Telios has enough firsthand experience to be included in the top group of MEP design professionals in the Texas area who have a proven track record of building quality projects. Our firm faithfully follows Telios pursuits and participates as much as we can based on the successes we believe they will continue to achieve."

How has Telios evolved?

As their delivery model has evolved, the team has evolved to apply its experience to smaller settings. Telios has developed and led the way for MEP and commissioning the systems. We want to continue to work with Telios and see it grow with our organization. Telios is a very special team and I have enjoyed seeing its families grow.

Should I use Telios for my project?

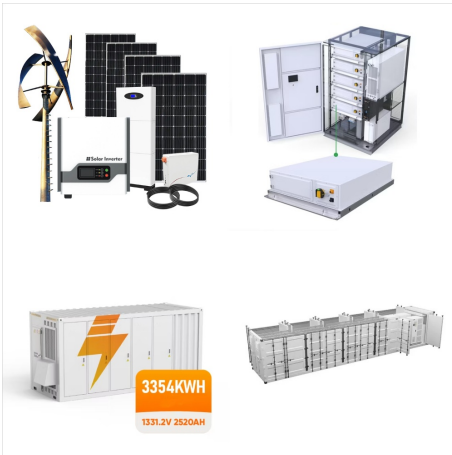

Without hesitation I highly recommend their consideration for your project, particularly the ones that require a strong team approach and unique strategies that deliver on economics. Telios has become a valued team member for KDC.

What makes Telios a great team member for KDC?

Telios has become a valued team member for KDC. They bring a wealth of knowledge in all building systems and constantly deliver good designs for our projects that meet all our client's needs as well as our budget and schedule goals.
