Currently, 2.5 Megawatts worth of solar projects are underway across three solar plants in Papua New Guinea. Although on-grid solar lighting is a cause for concern, the country has emerged ???

Currently, 2.5 Megawatts worth of solar projects are underway across three solar plants in Papua New Guinea. Although on-grid solar lighting is a cause for concern, the country has emerged as one of the world's largest off-grid solar markets. To be precise, 60% of households in Papua New Guinea rely on off-grid solar for daily lighting needs.
