On June 13th, 2024, Titan Solar Power???one of the largest residential solar companies in the country???abruptly closed its doors. That day, Titan's employees received an email that said company leadership had tried and failed to find a buyer for the company and bring in new sources of capital and that the company would close effective immediately.

The installation process can usually be done in a day, but there have been some customer complaints about Titan Solar Power taking longer and leaving gaps between workdays. Step 4: Commissioning Your System. Finally, Titan Solar Power will commission your system, at which point the panels should begin producing energy.

Titan Solar Power was founded in 2013 in the US state of Arizona and was present in 16 states. Image: Justin Lim via Unsplash. US residential installer Titan Solar Power ceased operations late

Titan Solar Power does NOT know what they're doing! Installed the solar panels, and everything seemed ok outside of not following Burbank's requirements which required a revision of AC/DC, outlined on Burbank's website. First inspection was scheduled for February 9th from 7-9 am. At 3:30 pm, I called and emailed Jessica with no response.
