

High Availability -TM Data Centres are powered by a robust state-of-the-art hardware and infrastructure, which leverages TM Global domestic and international Points-of-Presence, to guarantee high availability and 24x7 support.; Greater Security - With security by design to ensure continuous protection and remediation, including an integrated security management system ???

TM offers a wide range of proven solutions for Voice Solution, Application-to-Person (A2P) SMS and Person-to-Application (P2A) SMS. As communication tools continue to evolve, so must the underlying network and interconnectivity that power them. Businesses can benefit from voice solutions that are simple and efficient to support varied environments.
