

? The US Justice Department has revealed criminal charges relating to a thwarted Iranian plot to kill Donald Trump before this week's presidential election; the president-elect has started

Sky at a Glance, Sky & Telescope's weekly observing update, is published every Friday. Simple sky maps show upcoming celestial events, and S&T's Alan MacRobert shares observing tips ???

Besides the traditional 7-day per week calendar format, you can also display the sky events in a table (opened in a new window). This format shows additional information about many events because it has more room to display the extra data. The table can be printed and saved. To learn more about SKYCAL, see About the Sky Events Calendar.
