

(Togo First) - Togo just inked two solar energy agreements with the RELP association and Chinese company HAIER. The deals were sealed on December 5, during the first West African Energy Cooperation Summit in Lomé. The first agreement with RELP focuses on enhancing Togo's solar energy storage capacity.

At PV Tech: PowerAfricaSolar prospective solar clients are required to fill out the load profile form available on our website. A fully completed load profile form helps guide our engineers in sizing your solar system tailored to your load capacity, budget and packages we offer.

Power Africa Solar is a privately owned business and has completed many installations for residential and commercial properties. Our company uses the latest technologies available, ensuring access and support for our clients.

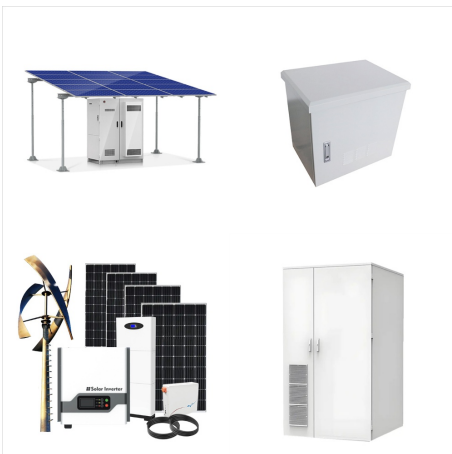

Secondly, PowerAfricaSolar's solar calculator provides you with a quote for the cost of the system. This information is important as it helps you budget and plan for the installation. The quote gives you an idea of the total cost of the system, including the solar panels, inverter, batteries, and installation costs, among others.

PowerAfricaSolar offers professional home or business energy auditing services in Kenya that provide a thorough assessment of your building's energy use. We offer industrial energy audits that can be classified into two types: Preliminary Energy Audit (Walk-through Energy Audit) And a Detailed Energy Audit (Diagnostic Energy Audit).

If you have received your Quote ID (the step above) you can use our Estimate Builder tool. If at any time you would like to schedule an online consultation to go through the process with one of our trained staff, please use the yellow button to the right.
