How many solar companies are there in Connecticut?

You may not think of Connecticut as a big state for solar energy, but the Constitution State has 165 solar companies, according to the Solar Energy Industries Association. With that many options, we researched which solar providers have the most to offer Connecticut homeowners.

Does Connecticut have solar panels?

Nearly a quarter of a million Connecticut homes have solar panels on their roofs, and for good reason: The state's homeowners have the second-highest electricity bills in the country, after only Hawaii. There are dozens of solar installers in the state competing for business.

How do I get the best solar rates in Connecticut?

Getting quotes from different installers is essential to getting the best rates possible in Connecticut. SolarReviews developed our Expert Rating criteria to make it easier for homeowners to find solar companies they can trust.

How do I choose a solar company in Connecticut?

Below is a short list of the key things to look for when choosing a solar company in Connecticut. Cost and financing: The average cost of a solar power system in Connecticut is about \$16,080. This is a sizable amount, but the price can vary depending on your chosen installer.

Is Connecticut a good state for solar power?

When it comes to solar power, the Solar Energy Industries Association (SEIA) calls Connecticut one of the fastest-growing small states in the nation. Connecticut's rapidly falling solar costs and notably high electricity bills are making more and more residents turn to solar power.
