

Who produces power in Trinidad & Tobago?

These producers are the Power Generation Company of Trinidad and Tobago(PowerGen) giving a total of 1,344 MW,Trinidad Generation Unlimited (TGU) giving 720MW and Trinity Power Ltd. giving 225 MW. All power stations in Trinidad and Tobago are fueled by hydrocarbons. T&TEC was formed in 1946 after the merger of independent companies.

Why are solar PV systems so popular in Trinidad and Tobago?

This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down. The government is encouraging the use of Solar energy through tax incentives,thus making PV systems more attractive for domestic and commercial use.

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad,right? We're definitely ready for more solar power to make a better,more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.
