

Does the Canadiansolar EP Cube ship via UPS or USPS?

It can NOT ship via UPS or USPS. Please email us or give us a call if you have any questions. The CanadianSolar EP Cube stands out for its compact yet powerful design, integrating a hybrid inverter with storage modules for ease of use. It emphasizes safety with its use of LiFePO4 batteries, meeting stringent UL 9540A test criteria.

How does the EP Cube work?

The inverter neatly attaches to the top of the battery bank, making it easy to install and operate. With the integrated hybrid inverter, the EP Cube is suitable for both new and installed PV systems. It also supports AC output, PV + battery, and battery-only options, allowing you to choose the best option for your home's energy needs.

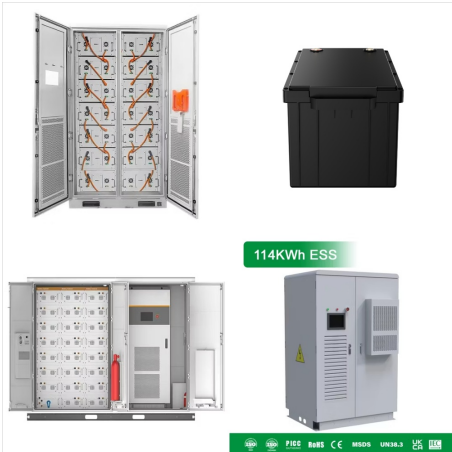

What is EP Cube used for?

Ideal for DIY solar projects or for scalable, repeatable installations. EP Cube | The Easiest

Design My System is an online tool that lets you create your own solar energy system in minutes. You can choose your system size, battery capacity, inverter type, and other components based on your location, roof size, energy consumption, and budget. You can also see the estimated cost, savings, payback period, and environmental impact of your system.
