In order to fulfill Trinidad and Tobago's expanding energy needs while reducing greenhouse gas emissions, wind energy has emerged as a possible answer. An exceptional opportunity to access a clean and almost infinite source of power is provided by the enormous potential of wind resources in T& T's offshore regions. To fully realize this

The Power Generation Company of Trinidad and Tobago The Penal Power Station is situated at Syne Village, Penal. This site was chosen because of the abundance of natural gas which had very little commercial value at that time. Construction of the plant began in 1950 with the establishment of a 11,400 Volt Busbar System and the installation
