The photovoltaic solar cells will emit the sunlight and convert the gathered solar energy into power energy, which is then stored in the solar battery. At night, the lamp will switch on automatically then consumes the solar power that is stored in the battery. During the first 5 hours of the night, the light will work at average lumens brightness.

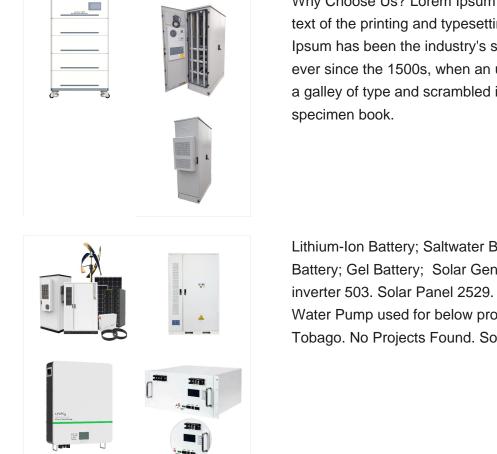

farm use solar system,Compared with the traditional solar battery,it saves space and doubles the lifespan.Can be well used in home solar system,commerical solar systems, and industrial solar systems. 5kw off grid solar system price in Trinidad and Tobago.
