

What is Hungary's Energy Strategy for 2040?

Hungary's Energy Strategy for the year 2040 focuses on clean, smart, and inexpensive energy while increasing energy independence and security and decarbonizing energy production. The strategy was incorporated into the amended National Energy Strategy for 2030.

How many people in Hungary use district heating?

In Hungary, about 650 thousand apartments in 95 towns are supplied by district heat. Approximately 80% of the thermal energy sold by district heating suppliers is consumed by households for heating and hot water consumption. District heating services are local public utility services.

How much energy does Hungary use in the year 2030?

According to estimates, Hungary's energy consumption in the year 2030 is expected to be 60 terawatt-hours (TWh). Traders and universal service providers sell imported and domestically produced natural gas to domestic users. Six regional distributor corporations - owned by three market players - oversee the natural gas distribution systems.

How much natural gas does Hungary use?

Hungary consumes 10 billion cubic meters of natural gas annually. Nearly 85% of this comes from Russia. After receiving a \$110 million subsidy from the EU, the Krk LNG Terminal (or FSRU) began operating in Hungary in January 2021.

Does Hungary have a natural gas pipeline?

Hungary has pipeline connections to six of its seven neighbors but has not succeeded in obtaining significant amounts of natural gas from sources other than Russia. Hungary uses 10 billion cubic meters of natural gas annually, nearly 85% of which comes from Russia.

Does Hungary have a nuclear power plant?

Yes, Hungary does have a nuclear power plant. Paks Nuclear Power Plant (NPP), currently known as Paks I, was put into service in the early 1980s and produces about 35% of Hungary's electricity supply. It is the country's main electricity-generating facility.

Synergy Construction Hungary will start works on third major factory project for Nestlé Hungary's pet food production facility in Bék, Hungary. We were awarded the first design & build contract called "Turul-4" in 2020 and since then we won two other large-scale projects.

Synergy's Lajos Daniel Feher represented our core values at a roundtable discussion organized by Art is Business, moderated by Juhász Dóra Director of Brand and Communications at MOME University

Hungary plans to increase the share of renewable energy sources to at least 21 % within gross final energy consumption. The major drivers toward the 2050 target include renewable and nuclear electricity, as well as electrification of end-use sectors.

Welcome to TSY Energy, a leading supplier of mechanical parts for transformers in the oil-filled transformer industry. With over 15 years of experience in Project management and Aftersales support, as well as 10 years of Engineering expertise, we are dedicated to provide high-quality products and exceptional service to our customers.

Synergy Construction Hungary Kft. is a fast-growing, international construction company with a strong background in diverse projects. Thanks to our wide range of products, our air-conditioning and energy systems, be they at smaller wineries or restaurants to the needs of the largest shopping malls, factories, IT companies and office buildings, provide a durable and cost-effective solution.

Human-centered digital transformation aims to fuse the needs of people with the potential of technology and the elements of business success. Importantly, this means that collaboration with users is the not-so-secret ingredient that leads to better outcomes. The reality is that transformation is as much about designing for humans as it is about adopting new technologies.

Legyen sz? b?rmeekkora csapatr?l, az egy?ttm??k?d?s egyik legfontosabb eszk?ze az egy?rtelm??, hat?kony kommunik?ci?. Egy v?llalkoz?s eset?ben pedig mindez t?lmutat a k?z?s munka hat?konys?g?n: a c?g eredm?nyess?ge, sikeres?ge m?lik rajta, legyen sz? ak?r a koll?g?k egym?s k?zti kommunik?ci?j?r?l vagy a partnerekkel, ?gyfelekkel t?rt?n?? kapcsolattart?sr?l.
