Noark Sion single phase hybrid inverters, are suitable for residential and light commercial use, maximizing self-consumption rate of solar energy and increasing your energy independence. During the day, the PV system generates electricity which will be provided to the loads initially. Then, the excess energy will charge the battery via Noark

NOARK Ex9BL-N RCBO Type A, 6 kA. The NOARK Ex9BL-N Type A RCBO is designed for optimal safety in both residential and industrial settings, combining overload, short-circuit, and residual current protection in a single, compact device. Its Type A residual current detection provides enhanced safety, especially for detecting both AC and pulsating DC residual currents.
