Image credit: Wassha. See the original story in Japanese.. Tokyo-based Wassha, developing a prepaid solar power delivery service to off-grid areas in rural Africa by networking kiosk vendors under the same name, announced today that it has raised 1.01 billion yen (about \$9.2 million) in a series B round.. Participating investors are Daikin Industries ???

Istanbul, 11 December ??? New analysis from think tank Ember finds that T?rkiye has a potential rooftop solar capacity of over 120 GW, or ten times the country's current solar capacity. The capacity potential is more than the total solar rooftop capacity added worldwide in 2022 (118 GW). Delivering 120 GW of rooftop capacity would mean 148 TWh potential ???
