Bryte Batteries was founded in 2020 by Brian Stead and Bess Olluri and is based in Trondheim, Norway. The company offers energy analytics, Life Cycle Assessment, energy storage solutions and flow batteries. Bryte primarily serves the industrial and a?|

We integrate flow batteries based on a modular design, with standard power blocks rated 333 kW and capacities ranging from 4 to 14 hours. We also integrate smaller indoor systems suitable for fireproof installations inside existing real estate structures.

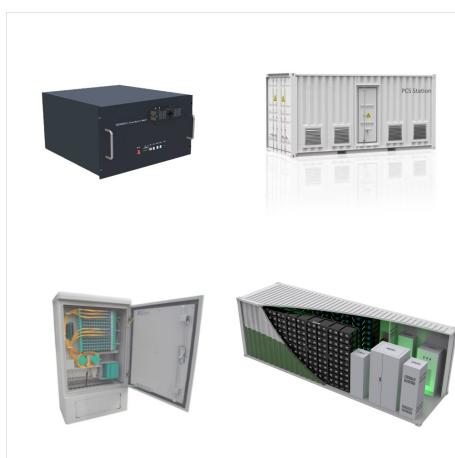

Bryte AS is working for a future where everyone, both in and outside of Norway, has access to clean, affordable, and renewable energy. Large-scale batteries can be used to overcome challenges with weather conditions, as well as outdated and undersized power grids, but current batteries are expensive and resource-intensive.
