

What is the \$7 billion solar for all program?

Oops, something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

Can solar power help Rhode Island's underserved communities?

Financial assistance programs proposed specifically deliver meaningful benefits of reliable solar power directly to Rhode Island's most historically underserved communities through low-income and disadvantaged community-specific eligibility requirements.

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

What is Block Island's energy plan?

Block Island, Rhode Island is looking to identify renewable energy sources that can be used to generate electricity on the island and reduce reliance on imported electricity and fuels. The community will engage in energy planning to shore up its resilience, particularly in the face of sea-level rise.

How does solar for all help low-income and disadvantaged communities?

Residential solar cuts home energy bills and provides families with resilient and secure power, and Solar for All will help low-income and disadvantaged communities experience these meaningful benefits, such as guaranteeing a minimum 20% total electricity bill savings for households benefiting from the program.

Does Washington have a solar program?

Washington's proposal includes a program focused on single-family homeowners, a program that helps
