

3. Generator. Generators ??? fuelled by diesel, petrol or gas ??? are now familiar load-shedding standbys in many homes, especially households with higher energy demands. They come in a variety of sizes, measured in peak power output and surge capacity (for appliances that require a lot of electricity to start, but much less to keep running).

Honeywell announced it will provide VIElectron, a CB Loranger Company, its first installment of battery energy storage solutions (BESS) to six solar parks strategically positioned across the U.S. Virgin Islands.

To achieve this goal, VIEO is offering to rebate as much as \$6,000 -up from an initial maximum of \$4,000 ??? against the cost of installing residential scale battery backup storage solutions, and an automatic transfer switch or smart critical load panel.
