BERLIN, Dec. 14, 2020 /PRNewswire/ -- By pioneering the world's first neutrinovoltaic energy generators, the Neutrino Energy Group believes that it has taken the preliminary steps toward a world

Furthermore, the Neutrino Energy Group understands that for any technology to have a significant impact, it needs to be scalable, affordable, and integrated into existing infrastructures. Thus, their focus isn't solely on standalone neutrino-powered devices but on how this technology can complement other renewable sources.

The Neutrino Energy Group intends to lean on the expertise of C-MET Pune's engineering talent while simultaneously training the first generation of neutrino voltaic technicians. United Kingdom
