What is Citaglobal Genetec Bess?

Through the development of Mybess, Citaglobal Genetec BESS aims to provide large-scale capacity energy storage and portability solutions, which could then be used to facilitate rural electrification and connectivity.

What is taglobal Genetec Bess?

taglobal Genetec BESS is the special purpose vehicleformed by Citaglobal Berhad and Genetecto develop and deliver end-to-end RE solutions for c ose in support of advancing Malaysia's RE needs and ambitions.***About Citaglobal BerhadL

What is the Citaglobal Genetec Bess end-to-end solution?

According to the statement, the Citaglobal Genetec BESS end-to-end solution comprises the BESS structure and management and power conversion subsystem, to the communications interface, that is highly customized to support different renewable energy sources such as solar, wind and hydro.

What is Citaglobal & Genetec technology collaboration?

Citaglobal and Genetec Technology exclusive collaboration agreement was formalized on October 6,2022 to develop battery energy storage management systems of store and manage excess power during the generation of renewable energy.

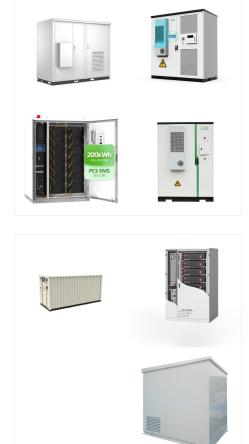

How did Citaglobal share price compare to Genetec share price?

As at 11.30am, Citaglobal shares were up 2.07% for the day to RM1.48giving the company a market capitalisation of RM561.76 million. Genetec's share price stood at RM2.89 giving the company a market capitalisation of RM2.17 billion.

Is Citaglobal a diversified company?

Listed in 2008, Citaglobal is a diversified groupwith multiple revenue streams. It is currently involved in civil engineering and construction (CEC), oil and gas (OG), power generation, property development and manufacturing. Its CEC segment is primarily involved in infrastructure construction contracts.

"Citaglobal MYBESS developed locally in partnership with Genetec -- can play a critical role in stabilising the grid by providing frequency regulation, load balancing, voltage stabilisation and smoothing the power fluctuations through efficient storage and release of surplus energy," it said.

Citaglobal is expanding its know how into renewable energy transition with focus on integrated green energy engineering, construction, installation and commissioning. Citaglobal aspires to expand its footprint in the region. Its renewable energy solutions encompass Solar, Battery Energy Storage System ("BESS"),Carbon Capture and Biogas Engines.

Recently, under the joint venture, CG BESS launched Malaysia's first locally developed and produced BESS, named "MYBESS", at Genetec EPIC plant in Bandar Baru Bangi, Selangor. With the first successful pilot MYBESS, a one-megawatt hour (1MWh) BESS, it supports the energy management and storage of Genetec EPIC plant. ANNUAL REPORT 9
