

VATICAN CITY ??? Pope Francis appointed two special commissioners to start work on building an agrivoltaic system on a Vatican property outside of Rome that could supply the whole of Vatican City's energy needs.

Pope Francis has initiated the construction of an agrivoltaic plant within the extraterritorial area of Santa Maria di Galeria to provide energy for Vatican City. In his Apostolic Letter titled "Fratello Sole" (Brother Sun), the Pontiff emphasizes the critical role of solar energy in addressing environmental challenges, echoing themes from

Pope Francis has unveiled plans for a solar plant that will let the Vatican City generate all its electricity from renewable sources. With an area of 121 acres or 0.44km<sup>2</sup> and a population of around 825, the Vatican City in Rome is the smallest independent state in the world by both area and population.

Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun." The Holy Father has directed the construction of an ???

This project will make the smallest country by land mass entirely energy independent, with all of its electricity needs met by solar power. Once completed, Vatican City will join Nepal, Paraguay, Ethiopia, Albania, Bhutan, Iceland and Congo as countries that generate more than 99.7% of their electricity from renewables.

Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun." The Holy Father has directed the construction of an agrivoltaic system on Vatican-owned land in Santa Maria di Galeria, located just outside Rome.
