

The Waka Waka Power+ is a small, lightweight portable power supply built on a 2200 mAh LiPo battery pack. A built-in solar panel occupies one full side of the device, which charges the battery when placed in sunlight. On the other side of the device???behind a flip cover???is a large round power button and two protected Cree LED lights.

Waka Waka is both a universal portable USB solar charger, an LED lamp and an external portable 3000mAh battery, to charge its iphone, samsung and all smartphones or devices equipped with a USB cable power supply. The lamp offers 40 hours of autonomy. It takes 2 hours to charge a 100% phone.

WakaWaka is a company that makes practical solar-powered light and charging devices. WAKA WAKA SOLAR POWER CHARGER LIGHT

Portable solar-powered USB charger with integrated flashlight Solar charge time: 12-24 hours
Completely charges smartphone in 2-3 hours
Provides 150 hours of light on a single charge 2 LED lights 4 brightness settings (up to 75 lumens)
Connectors: Micro USB-in (>0.5 A) & USB-out (>1.5 A) Every purchase will help spread light and power to the more than 1 billion people ???

The Waka Waka functions like most battery packs with a few additional features built in. Before we look at those features, however, let's clear up a common misconception people have about the Waka Waka (and similar solar-driven power packs). The Waka Waka does not provide on-the-fly solar conversion to continuously power an attached device.

This reviewer received promo considerations or sweepstakes entry for writing a review. The battery takes forever to charge when it's being charged by solar power and isn't really powerful ???

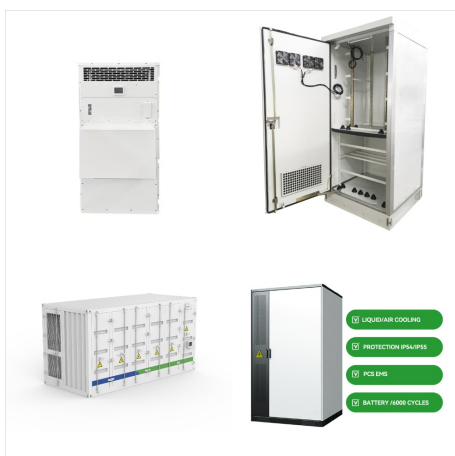

No ??? the Waka Waka Power is a really unique product that combines the following ??? a solar charger, a built-in battery, and a light source. In any emergency situation having light when the power is out not only is helpful for safety reasons but is a huge morale booster in what is likely a very stressful time.

WAKA WAKA SOLAR POWER CHARGER LIGHT

The adoption of efficient solar devices is growing quickly off the back of the drive towards more renewable sources of energy. WakaWaka, a small Dutch company, believe it has managed to create the best solar charger and light on the market, while employing an innovative sales technique that brings power to those who need it the most. Molly Lempriere takes a look.

The WakaWaka Solar Panel is a powerful performance extension to your Power+, or a way of turning your Power 5/10 into a solar charged power bank. It delivers 10W from the four SunPower panels and can be directly connected to the Power5/10. To connect to a Power+, or other USB chargeable products, use the solar panel in combination with the WakaWaka Solar Link. You ???
