

Is Germany a core market for Vattenfall Solar?

Vattenfall senior vice-president and business area wind head Helene Biström stated: "Germany is a core market for Vattenfall's solar development. Solar is cost-competitive and can be built subsidy-free, which is important in meeting the rapidly increasing demand for low-cost solar power from customers.

Does Vattenfall have a portfolio in Germany?

With the acquisition, Vattenfall's portfolio in Germany has grown to 7GW. The first projects from the newly acquired portfolio will begin construction as early as 2024. Credit: Thinnapob Proongsak/Shutterstock.com. Swedish state-owned energy company Vattenfall has bought German solar developer Solizer for an undisclosed amount.

Who is German biofuels GmbH?

German biofuels GmbH is a renewable energy company in Germany that is known for its high-quality standard biofuels product. They produce top-quality biodiesel and vegetable oil from certified sustainable resources.

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

WALLIS AND FUTUNA GERMAN SOLAR COMPANIES

Wallis and Futuna, officially the Territory of the Wallis and Futuna Islands, is a French overseas collectivity, formed from three Polynesian customary chiefdoms and located in the southern hemisphere. Its capital is Mata Utu, located in the Pacific Ocean 16,000 km from France and 1,900 km from New Caledonia. Demographics: 11,421 inhabitants (2022)

Evergreen Solar said that the first phase of construction of a landmark solar PV installation using the company's StringRibbon panels is nearing completion on the roof of a tunnel of Germany

The best jobs in the solar system. New opportunities and exciting challenges await you at IBC SOLAR. There are few industries that are currently more dynamic than the solar industry. We are an essential pillar of the energy transition and our solutions, ideas and innovations are the key to sustainable, climate-friendly energy production.
