

How long does a WECO battery last?

WeCo batteries are tested by repeatedly discharging and charging them, and based on this, it is estimated that they will still be at well over 80% of their normal capacity after 8,000 cycles. 4K5 ULTRA is the World's thinnest Dual Voltage Li-Ion ESS. Parallel up to 15 modules in LV and 12 models in HV. IP54 rated. Available with heatpad.

What is the capacity of a WECO battery module?

WeCo battery modules have a capacity of 5.3 kWh and are stackable up to a cluster of 5 (LV) or 8 (HV) modules with a capacity of 22 kWh and 41 kWh respectively. These clusters can be reconnected in parallel for higher capacities, with the additional option of expanding the container size up to a capacity of 2.7 MWh.

What is a WECO battery?

WeCo is an Italy-based company that design and produce lithium batteries equipped with the highest quality components. WeCo battery modules have a capacity of 5.3 kWh and are stackable up to a cluster of 5 (LV) or 8 (HV) modules with a capacity of 22 kWh and 41 kWh respectively.

What applications does WECO offer?

WeCo offers a wide range of applications, from single-family homes to medium-sized businesses to large industrial applications. These lithium battery systems are easy to install (plug and play) and are compatible with many international inverter manufacturers.

What is WECO BMS & LV/HV?

In addition, WeCo has developed one of the most advanced BMS (Battery management system) with active and passive equalizer with real-time control in each cell. Energy storage system for self-consumption or autonomous systems. 5K3 LV/HV.

Is WECO a good brand?

The battery has built-in wifi enabling it to be controlled and monitored online by technicians in Italy and this has proven invaluable for installers in the field. With recent price decreases, WeCo is now becoming an obvious choice for installers wanting the best value for money for their customers without compromising on
