

WeCo makes a world of difference with its reliable lithium iron phosphate (LFP) batteries that have exceptional lifespan and storage capacity. WeCo designs and manufactures LFPs using advanced electrochemistry technologies and the ???

WeCo has developed one of the most advanced BMS with active and passive equalizer with a real-time control on every single cell. Connected everywhere. The WeCo Wi-Fi monitoring system is able to detect, control and monitor every battery pack connected. Italian Quality & Design

WeCo makes a world of difference with its reliable lithium iron phosphate (LFP) batteries that have exceptional lifespan and storage capacity. WeCo designs and manufactures LFPs using advanced electrochemistry technologies and the highest quality components in ???

Weco Battery (5K3xp) Connecting photovoltaic systems to a battery system can enhance consumption of your self-generated electricity. We can design and supply a hybrid inverter and battery storage combined system which will allow for more efficient use of your solar PV system.

The specs look good, at least on paper. What caught my eye is that it's a 1C battery with 100% discharge at over 7000 cycles. That's more than double the cycles of the popular 1C batteries, and 15% more than the popular 0.5C batteries while being able to deliver twice the power.

The new generation of WECO 07.EMA series lithium batteries are designed to provide emergency power for elevator emergency lighting, phone, and alarms bells inside the cabin. These batteries are manufactured from safe and durable materials that increase lifespan, supply three times greater energy density, improve safety and boost charging speed.
