WESTERN SAHARA SOLAR TNB PACKAGE

State-run oil company Petrona Dagangan Berhad (PDB) has signed an MoU with Malaysian Green Technology Corporation (GreenTech Malaysia) and a subsidiary of major utility Tenaga Nasional Berhad (TNB

The package design includes an enclosed driver assembly incorporating the gas generator, power turbine, exhaust collector box, inlet plenum and lube system. These factory assembled modules allow the FT8(R) SWIFTPAC(R) power plant to generate power ???

Morocco drew up plans in 2009 to build solar plants and wind farms to generate 4 gigawatts of power by 2020 but much of that output is to come from sites planned in Western Sahara, the focus of a

WESTERN SAHARA SOLAR TNB PACKAGE

You should not use solar power to cut the first 300-400kwhr of usage as those are subsidized. Why would you want to use solar power to pay for 0.21 per kwhr usage. You should be aiming so that your solar power is paying for the 0.57 per kwhr usage not 0.21per kwhr usage. More solar panels is not free and you have to pay for it.

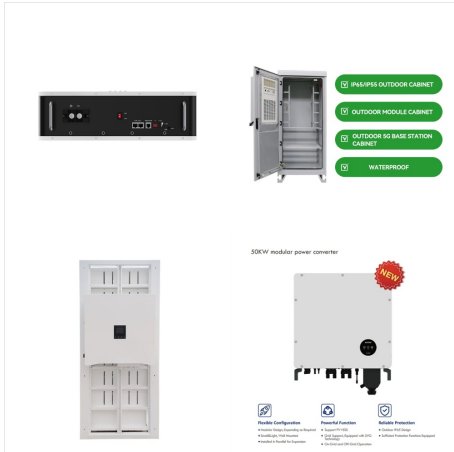

And it is gigantic. The new solar project is three times as big as the two solar plants so far constructed in Western Sahara, combined. The information about the new 350 MW solar plant in Boujdour appears on the website of Morocco's Ministry for Energy Transition. The plant, referred to as Noor Boujdour II, is described as part of the

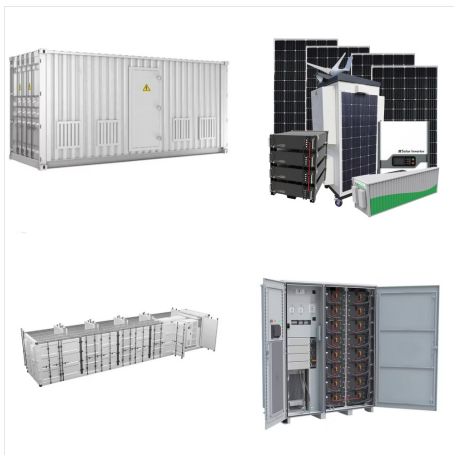

on occupied land in Western Sahara. Morocco increasingly tenders renewable plants in occupied Western Sahara as part of package deals that lump them in with similar projects in Morocco proper. The construction of the first phases of large solar plants in Boujdour and El Aai?n were for instance part of a contract
