

What is the best portable generator?

Best Overall: Honda EU2200i Companion Portable Generator Best Capacity: Predator 9500-Watt Inverter Portable Generator Most Rugged: Generac iQ3500 3500-Watt Inverter Portable Generator Best for RV Camping: Champion 4,650-Watt Dual Fuel Inverter Portable Generator Easy to Transport: Briggs & Stratton 3,500 Portable Generator

What is a good generator for a home?

If you need a generator that's sufficient enough to power your home, yet portable enough to haul onto the job site, the DuroMaxx is a good pick. The Ryobi One+RYI2322E is an inverter generator with decent power and an electric start. At 57 pounds, this generator is heavy enough to justify its wheels.

Are portable power generators worth it?

Portable power generators not only rank among those tech tools in and of themselves but have also been essential to charging all the other electricity-hungry items like phones, the best MacBooks, the best travel drones, power tools, the best electric bikes, and my trusty van conversion, not to mention an RV or home when the lights go out.

Which emergency generator should I buy?

If you do have quick access to gasoline, consider the smallest emergency generator for your home, so that you don't burn more fuel than necessary. If you want both options, there are dual-fuel portable generator models that run on either fuel type.

Should you buy a portable generator or an inverter?

Whether you opt for a traditional portable or the more efficient, quieter, and pricier inverter model option, you'll end up with plenty of power to run most of the key appliances and systems in your home. Even a mid-sized recreational generator suitable for tailgating, car camping, or van life can help to power some essentials in a pinch.

What is the best portable generator for a snowstorm?

It's not the sort of thing you want to lug around in the middle of a snowstorm. Among portable
