

Who makes Generac generators?

Generac manufactures the widest range of power products in the marketplace including portable, residential, commercial and industrial generators. We are also the leading designer and manufacturer of manual and fully automatic transfer switches and accessories for backup power applications up to 2 MW.

Is Generac still a leader in home standby power?

While Generac is still recognized as the market leader in U.S. home standby power, Mr. Jagdfeld has played a pivotal role in expanding the company into a global designer and manufacturer of energy technology solutions and other power products including clean energy, connected devices and industrial solutions.

Who is the current CEO of Generac Power Systems?

Aaron Jagdfeld was appointed president and chief executive officer in September, 2008 and is the current CEO. On February 11, 2010, Generac Holdings Inc. (NYSE: GNRC), parent company of Generac Power Systems, Inc., began trading on the New York Stock Exchange under the ticker symbol GNRC.

When did Generac sell its portable generators?

In 1998, Generac sold its portable products division to the Beacon group, a private equity firm, who later sold it to Briggs & Stratton Corporation. Upon expiration of a non-compete agreement related to the sale in 2007, Generac re-entered the portable generator market in 2008.

What does Generac do?

Generac is a leading energy technology company that provides backup and prime power systems for home and industrial applications, solar + battery storage solutions, advanced power grid software platforms and engine- and battery-powered tools and equipment.

Who is Generac's Chief Financial Officer?

York A. Ragen has served as our Chief Financial Officer since September 2008. Prior to becoming Chief Financial Officer, Mr. Ragen held Director of Finance and Vice President of Finance positions at Generac. Prior to joining Generac in 2005, Mr. Ragen was Vice President, Corporate Contr
