Explore Wiren's Speedwell MIRO project in Bucharest, a 400 kW solar installation meeting over 50% of the building's energy needs. Divisions. Consequently, the Wiren team optimized their efforts to meet the demanding implementation deadline, demonstrating exceptional coordination and commitment to the project's success.

Wiren launched Romania's first PV projects, pioneering renewable energy solutions in the country and setting the foundation for our future innovations. 2011 We developed Romania's largest 50MW PV park, setting new benchmarks in the renewable energy sector and showcasing our expertise in executing large-scale projects.

In cases where Wiren has not installed the project, our specialists audit the solar power plant and its associated installation works. Utilizing dedicated software, they will generate a performance report for the installed photovoltaic system. Maximum energy production can be achieved through the flawless implementation of the project and

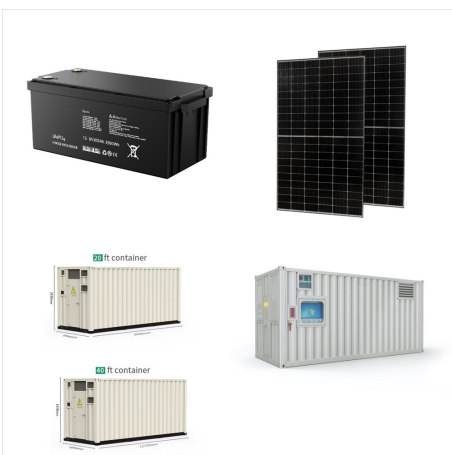

Learn about Wiren's Santiz solar plant, a 110 MW installation in Spain producing 200,000 MWh of clean energy every year. Divisions. Wiren's installation team joined a delayed project with the connection date at risk. Known for rapid installation and rigorous quality inspections, we were urgently needed for a final push.

Informa iile de contact (email, telefon, mobil, adresa) ale firmei Wiren Romania precum  i informa iile detaliate (bilan , dosare, m rci, etc) sunt accesibile membrilor site-ului.
