Are Lithium Batteries More Expensive? An X2Power lithium battery will cost more upfront than a flooded or AGM option, but that can be a bit deceiving. Since lithium batteries last so much longer than lead acid options, you'll most likely end up saving money over the course of the battery's life. Shop X2Power Batteries at Batteries Plus

In the odyssey battery vs xs power debate, many users have noted the superior power and durability of X2 Power batteries, making them a popular choice among professionals and enthusiasts alike. In essence, X2 Power batteries have carved a niche for themselves in the market, known for their exceptional power, durability, and performance.

I have a Triton 07 TR-186 with 150 Opti. I have 2 Lowrance Carbon 9"s, and one HDS Gen3 7" graph and 2 Power poles on a cutoff switch (and not used very often and the switch is off unless I'm actively using them). No stereo or anything like that. In July 2016 I purchased a Group 31 X2 Power battery from Batteries Plus, it started failing at a little over 3 years.
