

Who is Xiamen E-Star Energy?

Xiamen E-star Energy Co., Ltd. established in 2003, is dedicated to providing cutting-edge distributed photovoltaic products, energy storage solutions, and smart energy management systems for residential and commercial users. Our comprehensive product range includes the All-in-one ESS, microinverters, and portable power stations.

Who is E-Star Energy?

At E-star Energy, our team comprises power technologists, energy storage experts, and developers of new energy projects, both domestically and internationally. Our mission is to empower users to effectively manage their own new energy power generation, storage, and utilization.

What is E-Star Energy?

E-Star Energy is a company made up of power technologists, energy storage experts, and developers of new energy projects from domestic and overseas who aim to help users manage their own new energy power generation, storage and utilization. This helps reduce energy consumption, reduce costs, and improve safety, among other benefits.

What products does E-Star Energy offer?

Our comprehensive product range includes the All-in-one ESS, microinverters, and portable power stations. At E-star Energy, our team comprises power technologists, energy storage experts, and developers of new energy projects, both domestically and internationally.

Where is e-star based?

Our mission is to reduce carbon emissions and provide reliable energy solutions for households and businesses. E-Star is based in China but serves the world. In the past two years, our products have been delivered to many key overseas markets, including the Netherlands, Italy, France, Germany, and North America.
