XS Power XMAX90 DIY Pre-Assembled Batteries
 LFP Lithium high output cells make this a
 powerhouse for car audio. 90Ah's of power, 4
 connection points, easy to connect in parallel, or
 series. Rugged steel housing with mounting points,
 aircraft aluminum extra thick bussing. Comes
 completely assembled and ready to use once

XS Power lightweight Titan8 Lithium Batteries are available in many standard group sizes that fit nearly any automotive application. They provide powerful cranking amps with up to 5X the lifespan of a lead-acid or AGM battery and are compatible with stock or performance alternators.

XS Power 16 V Lithium Racing Batteries. XS Power 16 V Lithium racing batteries are for the drivers who want a battery to perform at its best. Their sealed design offers safe, maintenance-free operation and are resistant to cold and excess vibration. When weight savings is crucial, that's when you look to XS Power's 16 V Lithium racing batteries

Collection: PS Series Lithium Batteries Li-PS4B. Regular price \$164.99 Li-PSX14Q. Regular price \$249.99 Li-PSX20Q. Regular price \$359.99 Li-PSX30Q. Regular price \$439 XS Power Batteries was established in 2005 on the east coast of the US with a passion for powering the impossible. Facebook; Instagram;

The XS Power Lithium Batteries have advanced chemistry that removes the chances of destructive cell failure brought on by an imbalance in cell level voltage and capacity. Electronic Monitoring and Balancing Systems prevent cell imbalance which is the lead cause of poor performance and premature failure. Essentially these batteries can be

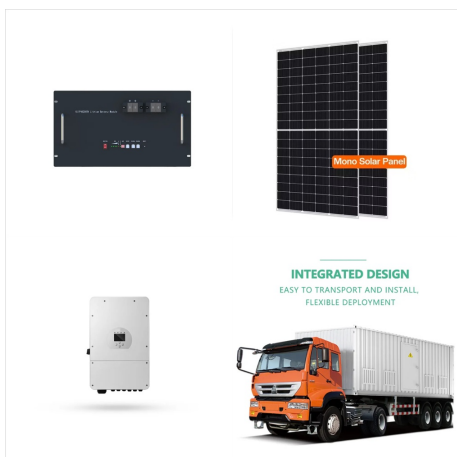

XS Power XV Automotive Series Lithium Batteries. XS Power XV Automotive Series lithium batteries are lightweight, powerful, and offer five times the life over lead acid and AGM batteries. These Lithium Titanate batteries are available for automotive applications in many common BCI group sizes for a direct fit in your vehicle.
