

Who is Zeta energy?

Chairman and CEO of US Grid Company and a respected leader in the US power industry. He has been responsible for structuring and investing more than \$100 billion in power and energy assets. Zeta Energy creates safe and long-lasting lithium-sulfur batteries that are higher performing, lower cost and sustainably manufactured.

Why should you choose Zeta energy?

Zeta Energy's raw materials and production processes give it one of the industry's lowest carbon footprints. Their higher density, lower cost, and better safety profile than today's batteries will enable breakthroughs in electrification that help us address climate change and democratize energy production.

What is a Zeta cathode?

Zeta's cathode is based on a sulfurized carbon material that offers high stability and superior sulfur content, outperforming current metal-based cathode materials. Zeta Energy lithium-sulfur batteries are sustainably sourced and produced. Zeta Energy's raw materials and production processes give it one of the industry's lowest carbon footprints.

Does Zeta energy hold the new gold standard in energy storage?
