

Who is SPIC solar?

SPIC Solar has been focusing on BC technology since 2017 and has been collaborating with ISC since 2019, adopting the proprietary Zebra IBC solar cell technology. It has now become one of the world's major suppliers of BC products, offering high-efficiency BC solar cells and modules for various scenarios.

Why should you choose SPIC solar?

SPIC Solar's BC products are widely favored in the market for their advantages such as high efficiency, excellent temperature coefficient, superior low light performance, lower hot-spot temperature, best power stability, extra power generation, proven reliability, and elegant appearance.

How many solar plants does SPIC have in 2023?

As of 2023, SPIC holds over 69.19GW solar plants, ranking 1st in the world for 8 successive years, also the biggest clean energy supplier in the world.

Who is Huanghe hydropower development & SPIC solar?

As a result, HuangHe HydroPower Development Co., LTD. (SPIC Solar) officially entered the international field of high-efficiency PV modules at an advanced level. Xie Xiaoping, the CEO of Huanghe HydroPower Development/SPIC Solar, said that the company supports the intelligent upgrade and application of clean energy.
